

ERROR LOG

Describe the errors you've encountered while working on this assignment. What caused the error and how do you overcome the error?

I did not add my main part of the code that explains and organizes my output.

Screenshot 1:

```
System.out.println("Car details: " + car);
car.start();
car.accelerate();
car.openTrunk();
car.brake();
car.stop();
System.out.println();

System.out.println("Truck details: " + truck);
truck.start();
truck.accelerate();
truck.loadCargo();
truck.brake();
truck.stop();
System.out.println();

System.out.println("Minivan details: " + minivan);
minivan.start();
minivan.accelerate();
minivan.openSlidingDoor();
minivan.brake();
minivan.stop();
}
```

Screenshot 2:

```
Car car = new Car("Toyota", "Camry", 2022, "Gasoline", 30.5, 4, false);
Truck truck = new Truck("Ford", "F-150", 2021, "Diesel", 22.0, 2.5, true);
Minivan minivan = new Minivan("Honda", "Odyssey", 2023, "Hybrid", 28.0, 8, true);
```
