Credit Name: Iterative Algorithm 1
Assignment Name: Stack List

<u>REFLECTION ON CODE</u>

<u>How has your program changed from planning to coding to now? Please Explain?</u>

The StackList program was created to implement a stack using an array or a linked list
and can be stored as an object data.

```
Size: 3
Top element: Third
Popped: Third
Popped: Second
Size: 1
Is empty: false
Is empty: true
```
